Full stack developer with expertise in front-end and back-end development.

SKILLS

- Frontend - JavaScript, React.js
- Backend - Node.js, Express.js
- Database - MongoDB, mySql

EXPERIENCE

Full Stack Developer

Axiphyl Healthcare Pvt. Ltd

04/2023 – 01/2024

Srinagar, Uttarakhand,

India

- Engineered a robust API in Express and Node.js, enabling seamless data retrieval from a MongoDB database.
- Contributed to the enhancement of user interface pages for production, leveraging Bootstrap, jQuery, and HTML to improve overall user experience.
- Successfully resolved website bugs, leading to notable improvements in web functionality and speed.

PROJECTS

Ecommerce Website 🌐

Front End and Back End Development

Tech Stack: React.js, Node.js, MongoDB, Bootstrap

- Frontend development using React.js for creating interactive, intuitive and responsive user interfaces.
- Backend implementation built using Node.js and Express.js to handle API integrations, and data operations.
- Database management utilized MongoDB as the database to store and manage product information and user data.
- User authentication: Implemented user authentication and authorization using bcrypt and JWT.
- Product catalog, shopping cart functionality: Crated a product catalog with features like search, filtering, and sorting.
