## PROFILE

Full Stack Developer with 1 year of experience in creating responsive web applications. Skilled in Node.js and Express.js. Seeking a dynamic role to leverage my expertise in a collaborative team environment.

## SKILLS

- Frontend - JavaScript, Html, CSS, Bootstrap
- Backend - Node.js, Express.js
- Database - MongoDB
- Version Control - Git
- Other Tools - Postman, Visual Studio Code

## EXPERIENCE

**Full Stack Developer**                                                                04/2023 – 02/2024
*Axiphyl Healthcare Pvt. Ltd*                                               Srinagar, Uttarakhand, India
- Developed backend functionality for a chat application with Node.js and Express, including APIs for messaging and real-time communication using WebSocket.
- Engineered task management APIs for project tracking and implemented routes for chat and group management.
- Revamped the website frontend by upgrading Bootstrap, calendars, jQuery, and fonts, significantly enhancing user experience.
- Performed Selenium automation testing, identifying and resolving critical issues pre-deployment.

## PROJECTS

**Ecommerce Website** 🔗
*Front End and Back End Development*
**Tech Stack:** React.js, Node.js, MongoDB, Bootstrap
- **Front End**: Developed interactive and responsive user interfaces using React.js.
- **Back End**: Implemented RESTful APIs with Node.js and Express.js for seamless data operations.
- **Database Management**: Utilized MongoDB for efficient storage and management of product and user data.
- **Authentication**: Implemented user authentication and authorization using bcrypt and JWT.
- **Catalog and Cart**: Created a product catalog with search, filtering, and sorting features, and a shopping cart functionality.
